

# Congress of the United States

Washington, DC 20515

July 16, 2019

474

The Honorable Ajit V. Pai  
Chairman  
Federal Communications Commission  
445 12<sup>th</sup> Street, SW  
Washington, DC 20554

Dear Chairman Pai,

As you work to implement changes to the Wireless Emergency Alert (WEA) system in the aftermath of recent wildfires, we ask that you promptly consider any additional measures necessary to ensure that any changes to the system do not impair its ability to provide rapid earthquake early warning alerts.

Recent seismic activity along the West Coast demonstrates the need to continue developing rapid early alerts for earthquakes. Last Friday, a 4.6 magnitude earthquake struck the Seattle region in Washington. A magnitude 6.4 earthquake hit Southern California on July 4, followed by a 7.1 magnitude earthquake a day later – the strongest earthquake to hit the state in 20 years. While the town of Ridgecrest was too close to receive an alert through the U.S. Geological Survey's (USGS) ShakeAlert earthquake early warning system before strong shaking began, other areas could have received WEA alerts in time: 15 seconds for California City, 21 seconds for Barstow and 48 seconds for Los Angeles. But these alert times would be reduced by WEA delivery latency. The success of earthquake early warning relies on extremely rapid, low-latency alert times. As a result, the recent changes to the WEA system to better geo-fence wildfire and other emergency alerts could unintentionally delay notifications and severely weaken the effectiveness of the ShakeAlert system.

Therefore, we ask that you work with the relevant stakeholders, including USGS, to ensure that the recent WEA changes do not inadvertently impair the ShakeAlert system's ability to provide specialized and timely earthquake warnings. We understand that on June 21, USGS asked the Federal Communications Commission to consider various changes to the WEA rules to make wireless earthquake alerts more effective. We ask that your agency act on this request from USGS for clarification, waiver and rule changes as soon as possible. We also ask that you promptly address any other issues posed by the new WEA rules that stakeholders believe will affect the distribution of wireless earthquake alerts.

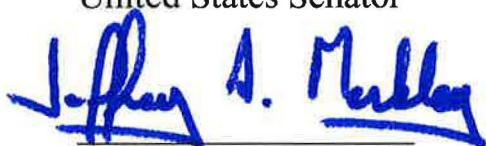

We appreciate the work the Commission has done to date on improving the WEA alerting system, and we look forward to working with you to continue improving emergency response capabilities in our nation.

Given the recent earthquakes in Washington and Southern California, the effectiveness of earthquake early alerts to our constituents is more critical than ever. Please provide within 30 days of receipt of this letter an update on the Commission's plan to address USGS's request. Thank you in advance for your assistance.

Sincerely,

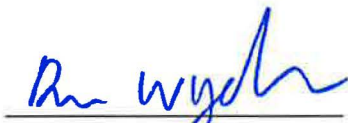

Dianne Feinstein  
United States Senator

Jeffrey A. Merkley  
United States Senator

FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON

OFFICE OF  
THE CHAIRMAN

November 4, 2019

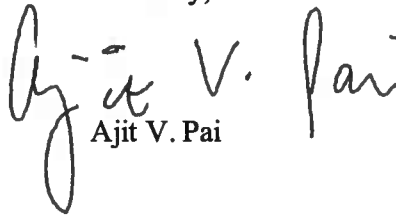

The Honorable Jerry McNerney  
U.S. House of Representatives  
2265 Rayburn House Office Building  
Washington, D.C. 20515

Dear Congressman McNerney:

Thank you for your letter regarding the Wireless Emergency Alert (WEA) system's readiness to support the United States Geological Survey's (USGS) earthquake early warning system, ShakeAlert. I share your commitment to ensuring that the WEA system is effective, so that when disasters such as the recent earthquakes along the West Coast strike, those in harm's way can get reliable information to stay safe and protect their loved ones. I am pleased to report that on September 23, 2019, the Public Safety and Homeland Security Bureau granted waiver relief to allow earthquake early warnings and related Public Safety Messages issued by USGS to reach the public as quickly as possible. I have attached a copy of the waiver order to this letter.

As Chairman, I have taken important strides to improve emergency alerting in response to alert originators' concerns, and I will continue to prioritize public safety. I appreciate your interest in this matter. Please let me know I can be of further assistance.

Sincerely,

  
Ajit V. Pai
